GITHUB

Es una herramienta web y un servicio en la nube que ayuda a los desarrolladores a almacenar, administrar y llevar un control de cualquier cambio que se realice en el código

The screenshot shows the GitHub repository page for 'WordPress / WordPress'. At the top, there are buttons for 'Watch' (1,371), 'Star' (10,828), 'Fork' (6,404), and a dropdown for 'Code', 'Pull requests' (4), 'Projects' (0), and 'Insights'. Below this, a message states: 'WordPress, Git-ified. Synced via SVN every 15 minutes, including branches and tags! This repository is just a mirror of the WordPress subversion repository. Please do not send pull requests. Submit patches to <https://core.trac.wordpress.org/> instead. <https://wordpress.org/>'.

Key statistics are displayed: 38,120 commits, 31 branches, 307 releases, and 43 contributors. A timeline shows the latest commit at 0b0c754 (8 hours ago) by aaronjorbin. Below the timeline, a list of recent commits includes:

File	Description	Time Ago
